Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-23,42-50, drawn to gray scale control, classified in class 345, subclass 690.
 - II. Claim 24, drawn to reducing motion artifacts, classified in class 348, subclass 687.
 - III. Claims 25-27, drawn to contrast and luminance control, classified in class 348, subclass 673.
 - IV. Claims 28-30, drawn to dithering, classified in class 358, subclass 3.13.
 - V. Claims 31-41, drawn to matrix display, classified in class 345, subclass 55.
2. Inventions of group 1-V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of group I of has separate utility such as gray scale control which does not related to the reducing motion artifacts by group II. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
